Faces and Places of the MDG Intersectoral Strategic Alliance at the Local Level

A Call to Action

Mirta Roses Periago
September 2006
Where does PAHO stand on the MDGs?

- Emphasize the equity challenge,
  - Going beyond “awareness” and “advocacy” to “ownership” and “critical intervention at the local level”

- Shift from focusing on poor countries to poor peoples
  - Where inequity and poverty are most frankly expressed.

- Concentrate efforts on the most vulnerable municipalities
  - Agreement ECLAC/CELADE for sub national mappings.

- Work on all the MDGs from the health perspective, understanding the principle of *indivisibility and synergy* in community work.
Key Actions to Accelerate the MDGs,
How to coordinate targeted actions to create synergies.

- Implementation of Critical Interventions
  - Quick Fixes (targeted concerted actions with quick returns)
  - Lessons Learned of "best" local practices to advance on each of the MDG
  - Efforts based on the instruments and methodologies developed at PAHO, and other agencies with the proper adjustments at the local level.

We do not need to re-invent the wheel!

BUT WE NEED TO MAKE IT TURN
